have Foreigners a Legal Right to Vote at the Approaching Municipal Election?

We ask this in all seriousness, for at the time of the passage of the Victoria Municipal Ordinance, 1867, in common with a majority of our fellow citizens, we entertained the belief that the right of franchise was conferred upon ALL ratepayers, whether British subjects or foreigners. Such, we are persuaded, was the intention of the Legislative Council; and until quite recently we were of opinion that that intention was not only implied but stated in the O dinance. Let us, however, examine the sections that apply to the question of tranchise, with a view of ascertaining how far the law is reconcilable with the construction that bas been popularly placed upon it. The new Ordinance, which was passed on the 2nd of April, 1867, comes into force on the 8th of November next, and its 62d Section enacts that " Victoria Incorporation Act, 1862," shall on that day become will and gold, with cortain excopusans. tion. Sections IX, XV. and XVI. of the new Ordinance give the qualifications and disqualifications of voters. Under Section XV. four things are necessary to entitle a person to vote. First, being a male of full age; second, three months' residence in the Colony of British Columbia; third, being at the time of tendering his vote rated on the Municipal Assessment Roll of the city; fourth, having paid all assessments due up to the time of voting. So far the qualifications seem to be clear enough; but on reference to the last clause but one of the Ordinance it appears that the sections above quoted do not apply to the forthcoming election, for in Section LXIII. the following clause occurs: "Provided, nevertheless, that the election of Mayor and Councillors to be holden on the 8 h day of November next shall be held according to the provisions of the said ' Victoria Incorporation Act, 1862,' save in this respect, that the persons entitled to vote thereat shall be such persons as shall at the time of election have paid all municipal rates and taxes then due by them." We refer to the "Victoria Incorporation Act, 1862," and in Sec. tion X. we find the qualifications of voters to be as follows: " Being a male British subject of full age; having resided in Vancouver Island and its dependencies for the space of three calenthe time of tendering his vote rated o the Municipal Assessment Roll of the said city for freehold or for leasehold estate to the amount of £20." Upon comparison of the sections, the matter appears (to us) plain, that whatever the Council may have intended, they have failed to express any other meaning in the Act than that a voter must be a 'male British subject of full age,' and that he must, in addition, have paid "all Municipal rates and taxes then due." Clearly, the Ordinance does not confer the right of franchise upon all persons who have paid the rates; it merely appears to require, as an additional qualification, that the rates shall have been paid by persons possessed of all the qualifications mentioned in the Act of 1862. Such, at

large number of cases are awaiting adjudication, and it would appear that no person on the Island possesses the power to issue summonses cr to try the cases. A serious injury is inflicted upon the public by this neglect on the part of some one-we cannot exactly say who-to carry the law into effect, and it is to be hoped that steps will be taken immediately to correct the evil.

The Relative Merits of the Candidates for the Mayoralty Considered.

EDITOR COLONIST :- The 9th of November is fast approaching, and the citizens will soon be called upon to elect their Mayor for the ensuing year. For the time-honored and well known appellation of "His Worship the Mayor," two candidates are in the field; Mr Macdonald, our present Mayor, and Dr. Trimble have presented themselves, making their bow to the citizens and soliciting the honor of the civic chair. Both parties are doubtless eligible and fully equal to the discharge of the duties of the office, and it will be for the citizens by their votes to say at whose hands they consider the duties will be most efficiently performed; and here as a leading observation it may be said, that after all the threes and difficulties of our Municipal institution, now that our Corporation affairs are at last placed in a healthful and satisfactory position, as evinced by the experience of the past year, it is a matter of the first importance that at this particular juncture the citizens should secure the best services offering. We require the best, the very best, services, and no incurring of danger that the usefulness of our civic institution may be impeded, imperiled or thrown back into past disorganization. Any one taking upon them selves the office of Mayor of our city should enter upon the duties of it con amore; it should be felt not only a duty to be punctual and attentive, but there should be entertained a pleasurable gratification in being so. That in the expenditure of the civic funds careful regard should be had for the best interests of the city; and if these be prominent among the qualities requisite for Mayor, we consider Mr Macdonald in his last year of office has established a very strong claim upon the support of the citizens, for that in the discharge of the daties pertaining to it there has been exhibited a care and solicitude approximating to that of the admi istration of family affairs. It seems to me that it is not Mr Macdonald who should so icit to be Mayor, but that the citizens should solicit him, that if he consents to be re elected it is services by show our appreciation of his past the head of the police it and placing him at

"That we should be to his virtues very kind,

And to his taults a little blind,' With regard to our old and highly esteemed citizen Dr Trimble, if ever it was true "that some men are born to honore others have honors thrust upon them," the sentiment is applicable to the worthy doc or. and in connection with his coming forward to be Mayor. Not one amongst us will for one moment believe it to be his own voluntary act-or that he has been seized or possessed of an ambition to do the city a service as Mayor, but that he has good-naturedly acquiesced in the argent entreaties of importanate friends. That the doctor has not had the moral courage to say a decided no to persistent entreaties, and that, "good, easy man," he has come forward to oblige his friends and not himself. Even the very commencement of the address to him is indicative of it; for although signed by some 103 persons, it commences with Dear Sir; and yet in all probability among the signatures there are many whose very name even is unknown to the doctor. We have little doubt but that many of those who have been most urgent in inducing the doctor to come forward (sever having takes into account the inconvenience it would entail npon him) have enjoyed it as a capital joke. But when it is remembered how the doctor is situated as a profe-sional man; "that he is still engaged in fighting the battle of life; still engaged in active professional duty-often required as a consulting physician in urgent cases-we can but consider that if ever there was occasion to say "save me from my dar months preceding the election at friends," it is on this particular occasion. which he tenders his vote; being at | To induce any one situated as Dr Trimble is, with time so valuable and who duties are so often required on the part of the community, seems to me a very equivocal compliment and more like the refinement of cruelty. I opine that amongst the lit of requisitionists there will not be found many of the doctor's patients, who naturally like his whole and undivided attention; but thi I do know, that with many of those to whom Dr Trimble is the medical advisor his election is looked upon with aversion. What is the doctor driving at? Surely he cannot be eeking the office of Mayor with the view of ascertaining whether the community will give him honors. That has been satisfactorily tested before by Dr Frimble, for he has had a seat in the halls of the Legislature. Taking all these circumstances into account, I lavor the return of Mr Macdonald in opposirion to Dr Trimble. Mr Macdonald has ample time at command for the duties of the office, and doubtless fortified by past experience will prove himself worthy of the position to which he aspires.

Aow THE SPIRITUALISTS LOOK - The Cleveland Herald thus describes the looks of the spiritualist brothers and sist rs, who have been holding a Convenion in that city. We were more interested in the female delegates than in the male. So far as the ratter is con-cerned there is the usual gathering of long kine. Phavily bearded, bald-headed, lean crowd, and not one has sout man in the spectacles; and almost all wear soft the said dusters, and most of them carry carpet bugs, The women are for the most part past their prime, generally of the cadaverous order, with now and then a cheerful face breaking out into smiles, and lighting up with joility and intelligence. As a vule, the women faces and intelligence. As a vule, the women faces are seriously sad; as if they had come to find some one who could minister to a mind diseased, some one who could pluck out a rooted sortow. The "Bloomer" custume is not unfrequent in the Convention, the wearers tripping about evidently not at ease, but yet as if determined to have their own way. Two of the "strong-minded" have thrown the meeting inside regular, trong could be metically and themselves inside regula- trock coats and trowsers, the coats being closed tightly front. These women dispense entirely w crinoline, and both being spare in figure, have a very lank, scant chilly look.

Inauguration of British Columbia Lodge, No 1187, E. R., F. and A. M.

Yesterday afternoon the new Masonic Lodge was inaugurated at Masonic Hall by Bro. P. M Robt. Burnaby, Esq. assisted by the officers of Victoria Lodge, No. 738, E. R., with the usual impressive ceremonies.

At 2 p. m. the members of the various Masonic Lodges marched in processionbeing preceded by the Volunteer Band and the banner of Victoria Lodge-to St John's Church, where d vine service was performed by Rev Frank Gribbell, the rector, assisted by Rev Mr Owen. The fine choir of St John's was largely represented; and the anthem, from the 133d Psaim, commencing " Behold, how good and how pleasant it is for brethren to dwell together in unity," was beautifully rendered-the first and second treble and the bass parts being most delightfully sustained. Ray Mr Gribbell's sermon was taken from I. Corinthians, chap XIII, v 13 .- " And now abideth Fairn, Hope, and Charity, these three; but the greatest of these is Charity." The sermon, which was well timed, was delivered in an eloquent and forcible manner and at its conclusion a collection was taken up for the benefit of the Hospital, which realized a handsome sum-At the close of the service the Masons reformed in procession and marched through Douglas to Fort, down Fort to Government street, and thence to Masonic Hall, where the following named gentlemen were installed as officers by Bro. P. M. Burnaby: Thos. Harris, W. M.; A. F. Main, S. W.; Henry Nathan, jr., J. W.; P. Medon, T.; A. Theakston S.; E. Harrison, S. D.; G. Creighton J. D.

In the evening the Masons sat down to a sumptuous repast served in M. Driard's best gtyle, at the Colonial Hotel. The ceremon ies throughout were highly interesting and passed off successfully.

The Rifle Match--Volunteers v. Officers of the Fleet.

Following is the score of both sides in the rifle match on Saturday last. The new regulation target was used. SUICIDE OF A CANADIAN IN NEW YORK -The New York Tribune of Oct 18th says At 101/2 o'clock last night, Arthur Mewbran, a boarder at No. 91 Clinton Place, shot him self through the heart, in his room. He returned from visiting his relatives at Drummondville, near Hamilton, Canada Westyesterday morning, and seemed in excellent spirit, having narrated to his host the particulars of his trip, and mentioned the fact of meeting a number of that gentleman's acquaintance. In the evening he accompanied a party to Kelly & Lean's Minstrels, and it was remarked that he was never in better spirits. On reaching home he at once retired to his room, and within ten minutes afterwards the report of a pistol was heard, and boarders who entered the apartment found him lying on the bed, partially undressed, and by his side a small Sharp's repeating pistol. He had obviously placed the muzzle of the pistol against his breast, as his shirt was blackened by the powder. It is conjectured that he was temporarily insone at the time of shooting timself. About one year ago he startled the inmates of the house by discharging a pistol at a late hour one night and in explanation he said that he thought he had seen a man in the bath room on the floor on which he sept, and at another time he di charged his pistol at the open window. Young Mewbran is said to have been a person of promise, and not addicted to excesses of any kind, He was a native of Canada, aged 22 years, and employed in the office of one of the British steamship lines.

FAILURE OF THE SAMANA NEGOTIATIONS -A Washington despaten, dated Sept. 15th. says :- " The Government to day received important information from one of the For eign Ministers, showing that is negotiations for the purchase of certain foreign territory have failed. It will be recollected that last winter Assistant Secretary Seward visited the Island of Samana, or Atwood Key, one of the Bahama group, for the purpose of looking into its position for a United States naval station. It was decided to be a valuable one and negotiations were at once entered upon for its purchase. Mr Bancrott, our Minister to Berlin, received instructions here last spring, pr or to his departure, to go via Madrid, and, in conjunction with Minister Hale. endeavor to effect the purchase or Samana from the Spanish Government. The matter was taken under advisement by the Spanish authorities, and after the lapse of some time, has been peremptorily declined. The Goveroment, in the meantime, fearing failure, opened a correspondence with the authorities of the Republic of St Domingo for the purchase of one of its islands for the same purpose, but the proposition was not entertained. It ends for the present, all of the efforts of the Secretary of State to secure a naval station in the West Indies."

A CELESTIAL ENTRAPPED-A venerable looking Chinaman, who has long sold whiskey to natives and heretofore eluded the efforts of the Police to capture him, was entrapped by officersMcMillan and Rappid, on Sunday, in the following manner: An Indian woman was instructed to enter the Chinaman's den and pu chase a bottle of "grog" with a "marked" half-dollar piece She went to the house as instructed, and shortly reappeared with a bottle of gin in are the people to turn these discoveries to hand. The officers seized the bottle and entering the den, arrested the Celesti I, in whose pocket they found the "marked" piece of money. John pleaded guilty and was fined \$100

CHARGE OF THEFT.-A respectable appearing man, named Henry C. Bradbury, was necused before the Police Magistrate yesterday of having stolen a bag of flour and a case of brandy from the cabin of a man named Charles Young. The complainant charged that he and Bradbury cabined tog. ther, and that the flour and brandy were conveyed away to the house of a friend, to whom the prisoner stated that Young had given him the articles. It came out in evidence, however, that Young was suffering from the effects of drink, about the time the articles are alleged to have been taken, and the Magistrate remanded Bradbury for one day.

FATAL ACCIDENT .- A sad accident occurred at King's camp on the east side of Whidby Island, on the 12th inst. An old man named McDonald was engaged, with several others, breaking out a rolling tier when one of the logs, suddenly starting rolled over him, completely severing one arm and his bead, leaving only a portion of the under jaw attached to the body. McDonald was about 53 years of age. His remains were conveyed to Port Madison, where they were interred by the Mas nic fraternity .-P T Message.

Many of the modern inventions in use here are American, and one American chemist, Dr. J. C. Ayer of Lowell supplies much of the madicine consumed in this country. His Cherry Pectoral, Pills, Sarsaparilla and Ague Cure constitute the taple remedies here, because they are of each application, sure in their results, and have the confidence of the people. White the science of Medicine is curried to a higher perfectiou in our own country (France) than any other, it strikes a Frenchman as a little singular that an American Physician should furnish the medical skill and remedies tor our Principal Province. We are happy to inform our readers that these superior medicines which the Emperor's principal Province is obliged to get from America may oe had by our neighbors of all Druggists.

A PERPETUAL DELIGIT.—"Flowers have their time to fade," says a favorite poet; but in Munana And Lannan's Florida Water their sweetness is made perpetual. The odor of other toilet-water becomes faint and inspid after a brifexposure to the air. It is not so with this exquisite floral preparation. Its perfume is fixed and permanent, Hang a handkerchief that has been moistened with it in the breeze for days, and the aroma will be as delicate and refreshing at the end of the time as it the fluid had just fallen upon its threads. This is not the case with any foreign extract, nor with any other American perfume.

extract, nor with any other American perfume. DANGEROUS SUPPURATION.—Extensive ab scesses are dangerous; but many of the methods of cure are more dengerous than the melady. They must not be suppressed by external applications. Butston's Sausaparkilla the most harmless of all dequratives, yet the most irresistible, toon purges from the blood the poison which generates the disease. It is the same with caribuncle, which is an exaggerated and virulent species of bell, and generally denotes a weakened constitution. Butston's Sausaparantala, the preat vexetable tonic and detergent, is the one thing needed in carbinucular as in all other ulcorous disorders. Briston's Vegetable Pills used at same time in moderate doses, will tend to alluy feverish symptoms, and will carry off through the bowels the morbide matter set free by the Sarsaparilla thus facilitating and hastening a complete cure.

WHY ARE BRISTOL'S SUGAR-COATED PILIS A POPULAR MEDICINE?—Because they relieve the bowels, tone tho s'omach, regulate the liver, and promote the general vigor of the system, without causing pain. Because their action is not followed by increased constitution, and the necessity for the weakest, as well as active enough to relieve the emistipated passages in the strongest. Because the ensistipated passages in the strongest. Because they create an appetite and revive the many all energies. Because they never produce tenesmus, but are like a healing balm on the irritated membranes of the stomach and intestines. Because no mineral ingredient pollutes the pure ve-etable, antiolious, and aperient substances of which they are composed. Becau e they act in harmony with naturn, and without violence. Because no human being who ever used them has been disappointed in the eff-ets. And, finally, because they are a family medicine, for which there is no substitute. They are put up in glass vials, and will keep in any climate. In all cases arising from; or aggravated by impure blood, Bristol's Sarsaparkilla should be used in connection with the Prils.

J. C. Ayrr. & Co. Gents: I feel it my duty to acknowledge what your Saraparilla has done for me.
Having inherited a Scrofulous infection, I have
suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms;
sometimes it turned inward and distressed me at the
stomach. Two years ago it broke out on my head
and covered my scalp and cars with oneserption. I
tried many medicines and several physicians, but
without much relief from anything. In fact, the
disorder grew worse. At length I was rejoiced to
read in the Gospel Messenger that you had prepared
an alterative (Sarsaparilla), for I knew from your
reputation that anything you made must be good.
I sent to Cincinnati and got it, and used it till it
cured me. I took it, as you advise, in small doses of
a tenspoonful over a month, and used almost three
bottles. No seab, which after a while fell off. My
kin is now clear, and I know by my feelings that
the disease has gone from my system. You can well
believe that I feel what I am saying when I tell you,
that I hold you to be one of the apostes of the age,
and remain ever gratefully.

Dr. J. B. S. Channing, of New York City, writes:

I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Fennale Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhead by it, and some where the complaint was caused by ulceration of the ulcrus. The ulceration listly was soon cured. Nothing within my knowledge equals it for these fennale derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the fennales my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Syphilis and Mercurial Disease.

New Orleans, 25th August, 189.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Yenered and Mercurial Disease. One of my patients had Syphilito ulcers in his throat, which were complaints of the cure of the cured with the cure of Yenered and Mercurial Disease. One of my patients had Syphilito ulcers in his throat, which were complaints and the cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered exeruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your haboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Many remarkable cures of these affections have
been made by the alterative power of this medicine.
It stimulates the vital functions into vigorous action,
and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long
been required by the necessities of the people, and
we are confident that this will do for them all that
